

6 year old test information

Kia ora whānau,

This year your child is turning six years old. Every child in New Zealand completes a test to gauge where they are working in literacy on their sixth birthday. Within this test their reading, writing, concepts of print, letter knowledge and word knowledge is assessed. This is a standardised test that must be completed in the same way each time in order to give accurate data on their literacy ability. This is **one** piece of the puzzle for our tamariki and should therefore be put into context. If you are unsure about the results of the test, need clarification or if you have any questions please don't hesitate to make a time to speak to me or your child's classroom teacher.

Ngā mihi nui,
Jared Fretwell
